Hon. R. B. Bennett Speaks Plainly on Political Issues

The Opera House was packed to the door. The galleries crammed on Monday night to hear Hon. R. B. Bennett, Minister of Justice, open the political campaign in this district as the Liberal-Conservative candidate for the West Calgary constituency. Besides the speakers, Mr. H. S. Patterson and Hon. R. B. Bennett, Mayor H. W. Chambers, J. W. Phillipson and H. E. Omond were on the platform, Mayor Chambers giving a welcome to the distinguished visitors and acting as chairman.

There was a crowd of about five hundred present who listened to Mr. Bennett and Mr. Patterson with extremely close attention and evinced keen interest in what the speakers had to say. At times you could have almost heard a pin drop in the audience.

The new Didsbury Orchestra under the leadership of Mr. Atherton produced several selections before the speaking commenced and this newly formed Didsbury organization was listened to with pleasure by the large audience.

Mr. H. S. Patterson

Mr. Patterson's remarks were chiefly about the tariff. He said that he wished to correct some statements made by R. J. Deacham in a popular article about the manufacture of the Ford cars in Canada. Mr. Deacham claimed that the company got \$165 per car in Canada over their U. S. price and that this totalled \$7,425,000 on the output of their Canadian factory for one year. He then read a long list of the features which had been included in the Canadian car of the year in question and were not on the American-made model. These totalled a cost of \$62,70. There was then an allowance of from 11 to 15 per cent exchange for the period under question. This amounted to some \$80. He said when the true facts of the case were considered there was not much difference in the cost of the car.

Case of Binder Twine

Mr. Patterson also quoted the case of binder twine which is 3 or 4 cents cheaper in the States than in Canada. He pointed out that twine is on the free list, therefore the tariff could not be blamed for this difference. In again referring to the Ford Company, he said that the establishment of this industry in Canada meant employment for 5,000 men, the export to foreign countries of 2,000 cars in 1920, and that the company had paid to the Government of Canada in that one year \$6,500,000.

HON. R. B. Bennett

The Hon. R. B. Bennett then traced the troubles of the country today to the war, and reminded his audience that the government had gone into the war on the unanimous consent of both parties then in the house. The bill accepted the peace treaty in the same way. The situation should then be faced fairly and squarely. There had been a general decrease in prices and the producers of all things, both farmers and manufacturers suffered. Like the manufacturer, the farmer had bought implements, seed and labor and high prices for the production of a crop which found a falling market. We in Canada have not suffered relatively as much as most of the other nations.

The Tariff

The speaker said that Mackenzie King held up a lower tariff so as to assure all the life of the country. He along with Mr. Peacock, folded his arms and said to the many statements of the different countries of the world, "You are wrong." "This is a great country," said Mr. Bennett, "but I set fall to believe that it will produce two Moors at the same time."

He took the case of the tariff on implements, which, he said, his hear-

Small Bank Accounts

We welcome even the smallest accounts and extend the same service to the patron depositing one dollar a week, as to the firm banking thousands.

Moreover, that deposit of \$1 a week, continued regularly, and including interest at 3% compounded semi-annually, gives you a balance of \$280.25 in five years.

ers could be surprised to know actually averaged only 7.12 per cent. The tariff generally was far under that maintained by the Laurier administration.

"The government does not advocate a high tariff but one high enough to develop our resources on an equal basis with other countries."

The removal of the tariff means making Canada a purely agricultural country and such isolated development could not be healthy. We couldn't make any money washing each other's clothes.

Mr. Crear, said the owner, when in Brandon, stated that the tariff was absolutely immoral. Now he has seen the manufacturing east he says that it is really a little immoral but that it can't be got rid of for quite a while. Smelling the smoke of the eastern factories made him change his tune.

"The government does not play this game," said Mr. Bennett, "we stand four square on our policy, namely, for Montreal as a Model."

Mr. Bennett went on to say that H. W. Wood said that the issue in the campaign was not the tariff, but the conduct of the two old parties. Mr. Bennett said that as an organization far mutual benefit and help he believed in the Farmer's League but when they made their organizations strictly to one class, it was turned into a political party with but one end, the advantage of one class which was represented. In every part of the world and at every stage of the world's history class movement had met with failure. A document in government is of this nature, for

Continued on page 4

denly stopped and just as Mr. Liesemer, who was on horseback, reached him let fly with both legs kicking him on the leg and breaking him between the ankle and knee. Mr. Liesemer managed to get off his horse but then collapsed. He had his dog with him and as soon as the accident happened the dog ran off to the road racing up and down barking to give the alarm. Some neighbors hearing him and thinking something must be wrong came down to the road to the pasture and found Mr. Liesemer lying there unable to help himself. He was immediately taken to his home and medical help sent for. He is getting along nicely and it is hoped he will be around again soon.

The Didsbury Pioneer

Successful Whist Drive

A very successful whist drive and dance was held in the Old Fellow's Hall under the auspices of the Old Fellow's on Thursday evening. Progressive whist was played from about nine until eleven, with about twenty-four tables under way and J. W. Phillipson acting as tournament master. Miss V. Carter won the ladies' prize and Mr. C. Mortimer was the gentle man's winner.

A refreshment lunch was then served to which need be said did justice well done. After this important item, then the orchestra struck up the strains of waltz and dancing was commenced. After the light waltz outfit gas lamps were brought in and the girls were kept up till about 2 o'clock when Mr. J. W. Phillipson on behalf of the Old Fellow's thanked the orchestra for their efforts to the mutual line and was answered by Mr. H. R. Atkinson, director of the orchestra.

It was then called an evening and the party wound their way home.

Dog Brings Help For Injured Man

On Thursday last as Mr. Ed. Liesemer was driving some horses out to pasture a branch in the bunch sud-

Canada Needs Population

Although the results of the census of Canada taken in June last have not yet been officially announced, sufficient information is available to establish the fact that the figures of population are going to prove highly disappointing to those people who, basing their calculations on the yearly return of immigrants entering the Dominion, had expectations of seeing a very substantial increase in the number of people in Canada.

Early returning dental statistics bring the same disappointment. In the winter census and the next hundreds of thousands, yes, millions of immigrants are reported as having entered the Dominion. The vital statistics likewise report the fact that the number of births exceed deaths by many more hundreds of thousands. Yet when the census is taken the people which are supposed to be here, and presumably ought to be here, are not in evidence. They come here but they have disappeared. The question which demands an answer is: Where have they gone, and why?

The Canadian Council of Agriculture, which has been giving some study to this problem, in a statement recently made public, points out that according to the returns of the Department of Immigration, no less than 1,512,836 immigrants came to this country between April 1, 1911, and March 31, 1921, which corresponds with the census period; also that during this same period births in Canada exceeded deaths by 1,100,000. In other words, that from these two sources there should be an increase in Canada's population of 952,836, which would bring the 1911 census of population of 7,266,643 up to 10,159,479 in 1921. As a matter of fact it is now confidently predicted that the census of 1921 will not show nine million people, and possibly not many more than 8,500,000.

On all sides the statement is heard that Canada needs a larger population; that the future of its railways, the ability to carry and utilize the raw material resources of the country, its natural resources, and thus such development can only be brought about by a large influx of people to do the necessary work. The need for a strong, aggressive immigration policy is, therefore, urged. True, there are a few voices raised in opposition to such a policy, but they are in a minority.

The writer of this column agrees that such an immigration policy is necessary and that Canada's efforts to secure settlers of the right type should not be spasmodic but permanent, well organized and continuous. But in the light of past immigration returns, reports of vital statistics, and census takings, it is apparent that something more than getting people to come to Canada is needed. The adoption of policies that will keep them here seems to be required above everything else.

If Canada cannot retain its native-born sons and daughters it is idle to expect new people to come and stay here. Clearly there is something wrong somewhere. If our native-born had remained at home, and if we had retained the large percentage of incoming immigrants during the past quarter of a century, Canadian population today would be double what it is, and, like compound interest, the future increase would be rapid.

Party politics can receive little discussion in this column. There are plenty of reasons for the discussion of such politics, but this is not one of them. But politics in the broad meaning of the term—that is, the science and business of government as distinct from party organization, shibboleths and particular policies—have a proper place here. In fact, no good citizen or true patriot can properly neglect them.

It is our conviction then that while Canada does need the most widespread, progressive and aggressive immigration policy that can possibly be devised, and that full advantage should now be taken of the opportunity which presents itself throughout the world owing to the desire of millions of people to emigrate from the old world countries, the first step in the framing of Canada's immigration policy should be a determination of the causes of the drift of people away from Canada, native-born and immigrants.

There is a cause for it, or a combination of causes. The cause should be ascertainable, and once ascertained it ought to be possible to apply a remedy and remove the cause. Every manufacturer, financier, railway operator, merchant, professional man, artisan and farmer is interested, and vitally interested in this problem. The application of the needed remedy might upset many preconceived ideas and destroy long accepted and honored policies. But what of it? If those ideas and policies are the cause of Canada's loss?

It is the same time-honored policy of the manufacturers on the one hand, or the farmers on the other hand, had to go by the board, would they not both be the gainers by adding millions to the population? Imagine what it would mean to Canadian manufacturers today if all the immigrants and native-born between 1911 and 1921 were in Canada now. What a domestic market in which to sell their goods. And what a relief in taxation, and in improved facilities for the farmer would result if the Dominion's population was between ten and fifteen millions instead of less than nine millions!

The need of population is Canada's greatest need. It is the outstanding national issue. It is bound up with all other issues and through its solution practically all other problems will be solved.

A French gunpowder plant blows the fumes from its gun cotton factory through a chimney lined with glass, which resists the chemical action perfectly.

Appetite Keen and Bowels Relieved

You can relish your meals without fear of upsetting your liver.

Carter's Little Liver Pills. Carter's Little Liver Pills have been erected by farmers in the prairie provinces this year which are now filled with sunflowers and corn. Sunflowers in yield have averaged more than twelve tons to the acre and the corn crop has been the best ever harvested in Southern Alberta.

Protect the child from the ravages of worms by using Dr. Chase's Worm Exterminator. It is a standard remedy, and scores of use have enhanced its reputation.

Corn and Sunflower Crop Good. Carter's Little Liver Pills have been erected by farmers in the prairie provinces this year which are now filled with sunflowers and corn. Sunflowers in yield have averaged more than twelve tons to the acre and the corn crop has been the best ever harvested in Southern Alberta.

Minard's Liniment Used by Physicians

Alberta's Grain Capacity

Large Storage Elevators Are Found in Many Towns.

The average grain capacity per station for the whole of the Province of Alberta amounts to over 110,000 bushels, as compared with 59,000 bushels for Saskatchewan, and 55,000 bushels for Manitoba. The largest country storage elevator is at Vegreville, Alberta, with a capacity of 375,000 bushels, although Vegreville in Saskatchewan runs a good second with a capacity of 440,000 bushels. Alberta towns are unusually possessed of large storage facilities: Youngstown has space for 28,000 bushels, Barons 273,000 bushels, Cormanor 320,000 bushels and Blaebank 290,000 bushels.

When Your Appetite Fails This Is What You Need

When the very thought of eating makes you feel dizzy, when you're run down, stomach in bad shape—you need Dr. Williams' Pink Pills. Hamilton's Pills. They tone up the liver, assist the stomach and improve digestion. The taste becomes aware of new flavor in the mouth. You'll feel better, you'll look and feel a whole lot better after using Dr. Williams' Pink Pills. Many folks used this medicine and found it helped them to keep in the pink of condition all the time, 25¢ at all dealers or The Catara-Boone Co., Montreal.

A Scotch cabinman, according to the London Sunday Express, was driving an American sightseer around Edinburgh. He stopped suddenly, and with a wave of his whip, announced: "That is John Knox's house." "Who is John Knox?" asked the American. The cabinman was dumbfounded. After a pause he blurted out: "But, do ye never read your Bible, man?"

Hiccup Epidemic Prevalent

Don't get the habit of hiccups—stop the slightest attack at the beginning. New York brings the latest remedy, now only \$1.50 a box, drops of Nervilite, a tea of tea leaves of Nervilite, sweetened water. For stomach pains, bloating, cramps, diarrhea, nothing will prove more useful in every household than a 35 cent bottle of good old Nervilite.

Growing Hemp in Manitoba

First Year's Crop Will Be Five Hundred Tons.

The hemp crop of Manitoba for 1921, the first year that it has been cultivated extensively, will be large, according to a Winnipeg company, under whose direction farmers in the Province send and sow the hemp. Five hundred tons will be realized. It is estimated, and at Portage la Prairie, 200 acres were under cultivation. More than 400 acres have been sown to hemp in the Swan River district.

If Tormented With Worms Use Good Old 'Putnam's'

It's really a simple thing to remove your worms and without pain if you apply Dr. Williams' Pink Pills. It acts like magic, bites out the worm, root and branch, leaves the skin smooth as silk. No failure with "Putnam's," 25¢ everywhere.

Auto Industry in Saskatchewan. Expansion of the automobile industry in Saskatchewan is illustrated by statistics which have been compiled by the Provincial Government for the first eight months of 1921. The number of licenses issued for private cars was 59,454; motor cycles 235; trucks 1,747.

BEAUTY OF THE SKIN

Winnipeg Imports Bulbs From Holland. More than sixty thousand tulip bulbs have been imported into Winnipeg for fall planting in the grounds of public buildings and in parks. All of these bulbs, which were purchased in Holland, are of the Dutch species, and of many varieties.

WHAT TO DO FOR STOMACH TROUBLE

Good Advice From One Who Had Suffered Much.

Nine-tenths of all forms of indigestion or so-called stomach trouble are not due to the condition of the stomach at all, but are caused by diet, indecision, worry, etc. The leading cause of indigestion is thin blood. Good blood and plenty of it is required by the stomach to take care of the digestive processes. Thin blood causes indigestion, gas forms, gas torts and causes pains in various parts of the body. Instead of taking medicine, take a blood tonic.

Relief from this condition can be obtained by the tonic treatment which Mr. D. Shaw, Mr. Stewart, P.H. Ward and others are recommending to others. Mr. Shaw says: "I suffered from indigestion for over four years, and have tried many cures, the well-known ones such as castor oil, digestives, etc., but none of them, but would never obtained more than temporary relief. The trouble was aggravated by constipation, which led me to the common failing to do its work, and laxatives only gave relief to the bowels and left the stomach in worse condition. The result was a blood tonic giving me no relief whatever. I did not sleep well at night and was growing despondent. I was in this wretched condition when a friend advised me to try Dr. Williams' Pink Pills. I got three boxes and by the time they were finished there was some change in my condition. This greatly encouraged me still. I continued taking the pills for some three months, by which time my stomach was all right again, my food good, and I was sleeping well. Life was worth living. My advice to all who suffer from stomach trouble is to give Dr. Williams' Pink Pills a fair trial."

Mr. Shaw's advice is to obtain the pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

A small, crawling without a pause, would take fourteen days and five hours to travel a mile.

Ask for Minard's and take no other.

New Zealand has 4,581 registered apidaries, representing more than 50,000 colonies of bees.

SUFFERED FIVE YEARS

Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I could not afford. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in full health and am able to do all my own work. I recommend it to others, and give you permission to publish this letter in your little books and in the newspapers of a continental paper."—Bridgette, Ont.

Why women will continue to suffer so long is more than we can understand, but we thank God that Lydia E. Pinkham's Vegetable Compound exists.

For forty years it has been the standard remedy for female ills, and has relieved the suffering of thousands of women who have been troubled with such ailments as displacements, inflammation, ulcerations, irregularities, etc.

Lydia E. Pinkham Medicine Co. (continental), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

British Premier Pleads For Understanding And Peace Among Nations

London.—In outlining the Government's proposal to alleviate unemployment, Mr. Lloyd George made the following declaration in the House of Commons:

"Peace and a good understanding among nations is clear. Let us get out of the atmosphere where Lloyd George talk about a German without a country or your bixy you are not a patriot. Trade cannot start in such an atmosphere. If you intervene to make peace, your motives are misunderstood; but if Great Britain will not do it, who will? We want to see the nations begin again the task of peace."

Mr. Lloyd George, referring to trade with Russia, said there had been no restrictions on the British side to trading, but that the total trade for the last eight months of the present year had been only £23,150,000, which showed there was not an inhibited field in Russia for British exports other than oil.

In the debate following the Prime Minister's speech, Mr. Asquith said in his judgment the question of unemployment raised the necessity for re-consideration of the entire problem of international indebtedness, including the indebtedness of the Allies to one another, and the indebtedness of their late enemies to the Allies.

Pacific Naval Base Not Named

Premier Hughes Says It Will Not Be Singapore.

Melbourne.—Premier Hughes, speaking in the House of Representatives of the Commonwealth, said the question of a British naval base in the Pacific was discussed at the recent conference of the Empire and that a decision regarding it was reached. He added, however, that the base would not be at Singapore.

Premier Hughes' reference to Singapore may be taken in connection with an article in the London Daily Sketch reviewing the Empire. In it Great Britain was preparing a new naval base in the Pacific and which stated it was intended to spend £2,000,000 in converting Singapore into a first-class station. The Sketch added that if an agreement were reached at the Washington armament conference, the arrangement which included the creation of an alternative base of less importance in Australia, could be countermanded.

Railway Shops To Reopen

Men Laid Off On C.N. Have Been Recalled.

Toronto.—A move to relieve unemployment was made yesterday by the Canadian National Railways sending out instructions to the general managers to re-employ the men laid off in the past six months, according to an official announcement made by the management.

In addition to the work to be undertaken in the shops of the Canadian National Railways, contracts for repair work will be carried on in the car building plants of the various Canadian equipment companies located at Fort William, Hamilton, Montreal, Amherst and New Glasgow. The announcement states that the work will be begun at once.

Canada Wins Prizes For Cheese.

London.—The prize list of the Dairy Show in the Agricultural Hall shows that the first three places in the colonial Cheddar cheese class fell to Canada. The first went to Mountainview Cheese Factory, Ontario, second to Ayr & Company, Montreal, and third to the Dominion Cheese Factory, Toronto.

Two Injured in Freight Collision.

Brampton, Man.—On the result of a rear end collision between two Canadian National freight trains at Brampton Junction, 27 miles east of here, Alan McDonald, Swan Lake, Manitoba, is in the hospital suffering from a broken ankle. J. I. Cooper, Winnipeg, brakeman, sustained slight wounds.

A Red Cross Appeal For Peace

Nations Asked to Join in Campaign Against Spirit of War.

In view of the present war and uncertainty of principles above the level of human passions, the helping hand of the Red Cross was stretched out to all victims throughout the extent of the Great War.

Today, the Red Cross owes its life and to all its many workers to proclaiming as an ideal and a practical intention, a struggle against the horrors of war, an attempt by world-wide help and self-sacrifice definitely to abolish war.

The mere continuation of Red Cross activity in time of peace will no longer suffice. It is the wish of the Red Cross to work in the interest of peace.

Therefore, the Red Cross calls upon all whole-hearted citizens, irrespective of nationality, religious belief, profession or social rank, to join as far as lies in their power in a systematic campaign against the spirit of war, which is a constant menace to the world's peace.

During five years, millions of men were killed or maimed. Today, thousands of ex-soldiers or prisoners at rest set free bear terrible marks of bodily and mental suffering. All of them believed that the generations to come would reap the fruits of the great ordeal in a new international life, which would be more brotherly, franker and more full.

Instead, disorder and uncertainty,

distrust and greed, hatred and the threat of fresh quarrels are appearing throughout the world. The spirit of war, unconquered, reigns supreme. Its sinister influence is evident. It inspires lines of policy and press campaigns, which lead public opinion astray and embitters the economic competition among nations.

During the terrible years of the recent war, salvation efforts were made by the different nations. In order to inspire such sacrifices, a special reward was promised—namely, the annihilation of this same spirit of war, which is a pest as old as the world and a constant menace to mankind.

Thus, generations yet unborn

would have been delivered from the scourge at the price of the suffering which the war entailed. This hope sustained nations and armies.

Have they hoped in vain?

Have millions of human lives and the wealth of nations been sacrificed in vain?

Associated with these questions, the Red Cross recognized a duty.

At the suggestion of Senator Angus, Chairman of the Italian Red Cross, the tenth International Red Cross Conference, which met at Geneva on April 1st, 1921, voted the following resolution:

"The International Committee of the Red Cross and the League of Red Cross Societies shall address an appeal to all nations, exhorting them to combat the spirit of war, which dominates the world."

These two organizations call therefore on nations and individuals to fight with all means in their power this malevolent spirit. May statesmen, writers, school and university, capital and labor, unite behind the banner of their duty, in the interest of man kind, to help peace to conquer the earth. Above all, children should be brought up in this fundamental belief.

It is essential that the human mind should once more be open to the broad lines of an internationalism, which, while allowing the citizen to love his town and the patriot his country, teaches all men to respect the existence and the rights of their fellows, by bringing into the daily life the individual light of a justice, which is to be in all the world for all the time.

This true internationalism cannot be realized without the active and ultimate cooperation of governments, parliaments, voluntary organizations, the press, the clergy, and above all, National Red Cross Societies. To the union of these forces must be added a supreme factor; the power of individual conviction.

WESTERN EDITORS

E. Hartland, Publisher of the Western Prairie, Cypress River, Man.

Every man, as far as lies in his power, must contribute to make peace permanent in the world.

The individual must no longer see the world in the light of his own selfishness, anger, fear and human passion, but in a spirit of concord and mutual aid.

Humanity only can a better future be provided.

Faithful to the ideal which inspired its founders, and which it has ever served, the Red Cross hereby declares before the whole world, that its work does not end with war. The Red Cross appeals to the heart of all mankind, that each individual may find in himself the needed strength and determination to make and keep universal peace.

Oil Light Beats Electric or Gas

Burns \$4. Air

A new oil lamp that gives an amazingly brilliant, soft white light, even brighter than gas or electricity, has been tested by the U.S. Government and found to give 100 candle power per hour to 100 ordinary oil lamps. It burns without odor, smoke or noise, pumping up is simple, clean, burning Burns 94% ate and 5% clean, non-kerosene oil.

The Inventor, T. V. Johnson, 505 McDermott Ave., Winnipeg, is offering to send a lamp to any home. His trial lamp is given away to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to send \$200 to help him in his work, and without experience or money, make \$25 to \$50 per month.

Bank Bandits Get

Five Years Each

Sentences Given Men in Hold-Up at Elie, Man.

Winnipeg.—Six young robbers who got out to hold up the branch of the Bank of Hochelaga, Elie, Man., and got away with \$12,295, were sentenced yesterday to five years imprisonment.

The bandits, Herman H. Hedges, James Robbie, Sydney L. Roberts, George W. Adams, Clarence W. Adams and David Leifer Leifer was the man left in charge of the owner of the stolen car which the bandits used. The others entered the bank.

Cascarets Tonight

For Liver, Bowels, If Bilious, Headachy

Get a Decent Candy to Nurse.

You're headachy. You have a bad tooth, you're constipated, your eyes hurt, your skin is raw, you lips are parched. No wonder you feel mean. Your system is full of bile not properly passed on, and what you need is a cleaning out. Cascarets can do this. Cascarets contain a billion dollars' worth of billions of salicin to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Cascarets are gentle, thorough. Cascarets, liver and bowels are gone by morning, with gentle, thorough Cascarets, they work while you sleep. Cascarets can have a liver and bowel and bowels clean, stomach, sweet, and your head clear for months. Children love to take Cascarets too because they never sripe or sicken.

Bomb Sent to U.S. Ambassador.

Paris.—A bomb exploded in the hands of Myron T. Herrick, the United States ambassador, seriously injuring the valet who opened the package containing it. The room in which the explosion occurred was wrecked. Mr. Herrick arrived at the house two minutes after the bomb blew up.

B. C. Canners State Freight Rates Forbid Shipment To Prairies

Two Minutes Silence For Armistice Day

Proclamation Will Soon be Issued to Canadians.

Ottawa.—In compliance with the request of the British Colonial Office, the Canadian Government will shortly issue a proclamation calling upon all Canadians to observe the two minutes of silence from 11 o'clock in the forenoon until two minutes after, on Friday, November 11, the anniversary of the actual signing of the armistice. Special commemoration ceremonies will be held on Monday, November 7, as provided by the act passed at last session of Parliament.

The two minutes of silence will be observed on November 11 in order to make this mark of respect to those who fell, and in memory of the war uniforms throughout the Empire. As usual, all movement will cease for the period, including ships and trains.

British Boat Sinks Wrangel's Yacht

Former Head of Anti-Bolshevik Government Loses Fortune.

Canadian steamer, General Baron Wrangel, carrying personal property worth \$100,000, was lost when the vessel sank, and important documents of the Canadian Government were lost when the yacht Lutecia, on which the former head of the Anti-Bolshevik Government in South Russia, Rydin, was sunk by the British steamer Adria.

The Lutecia rest in 70 feet of water, and it is believed divers may be able to recover part of the treasure.

Want Better Understanding

British Ambassador to U.S. Makes Special Pica.

Red Springs, N.C.—Standing under the United States flag with the Union Jack to his right and the flag of Canada to his left, Sir Archibald Geddes, British Ambassador to the United States, speaking before the Scottish Society of Auctioneers in session here, made a plea for a better understanding of our country. He申了 the people—the voters of the country—which he styled as the real rulers in democratic countries.

Accept Wage Agreement

Chicago Plumbers and Carpenters Agree to End Strike.

Chicago.—Five thousand of the Journeyman Plumbers and Gas Fitters' Union, who have been on strike since the announcement of Judge Landis' wage award of \$1 instead of \$1.25 an hour, are returning to work under an agreement signed with the Master Plumbers Association, which, when it began holding out for a wage scale of \$1.25 an hour, now are returning to work at the Landis wage scale, unofficially it was said, though no contract has been signed.

Poisoned Candy Sent to Nurse.

Chicago.—An exhaustive search for the sender of a box of poisoned candy, responsible for the critical illness of six nurses at the West End Hospital, is being conducted by police officers. The candy, which was sent in a bottle of perfume, contained a deadly poison.

The box came through the mail and was addressed to a 17-year-old student nurse. It contained homemade fudge, analysis of which was said to show that the deadly poison permeated all the candy.

Senate Ratifies Peace Treaties.

Washington.—The Senate has ratified the treaty of peace with Germany, which was reluctantly reported by the foreign relations committee.

They also ratified the peace treaty with Austria by the same vote, and a similar peace treaty with Hungary, completing the administration's immediate peace programme with the former central powers.

Give your local merchants a chance. Buy at home.

Vancouver.—While an unlimited natural market for British Columbia fish exists in the prairie provinces of Canada, fishing interests on the Pacific coast have never been able to develop this market owing to the unfavorable railway freight rates between Pacific coast points to points in Alberta, Saskatchewan and Manitoba. H. E. Burke, manager of Wallace Fisheries here, and the leading salmon fisherman, told the Board of Railway Commissioners.

Although the British Columbia product is within a comparatively short distance of the prairie markets, the foreign market has always been more accessible than the nearby domestic market, Mr. Burke declared. During the war enormous quantities of B.C. fresh sea fish were shipped to the British Isles, and were sold before the Government paid 25 per cent. the freight rate. When this bonus was withdrawn at the close of the war, the shipments of fish to prairie points fell off to practically nothing and this Mr. Burke attributed to the high freight rates. He urged the elimination of the mountain scale of tariff in order that British Columbia industries might develop a home market.

Comparative freight rates as between Vancouver and Eastern points submitted by Mr. Burke indicated that the British Columbia shipper must pay a freight rate of 97.2 per cent. higher. The value of fish production British Columbia in 1920 was \$22,229,161, or 45.3 per cent. of that produced in all Canada.

P. G. Evans, representing the fruit and vegetable canners of the province, said that the industry he represented suffered from the same discriminatory freight rates as other industries in British Columbia.

Express Messenger Robbed

About \$30,000 Secured From C.P.R. Train No. 4.

Moose Jaw.—Investigation by officials of the Dominion Express Company established the fact that approximately \$30,000 was secured when H. Battle, express messenger on train No. 4, C.P.R., was held up by an unknown bandit in the vicinity of Swift Current. The police, it is believed, are working on the theory that more than one man was concerned in the holdup.

Officials of the Saskatchewan Provincial Police have been scouring the Province in the vicinity of Parkersburg and Chaplin in quest of the bandit or bandits. Inspector Goldsmith, with several police officers from Regina, has been directing the man-hunt, with Moose Jaw as headquarters.

A cordon of police has been thrown about the two suspected areas in the neighbourhood of Chaplin and Parkersburg, and police officers have been aiding in an attempt to round up the marauders.

PAINFUL DIARRHOEA

CRAMPS IN STOMACH

Mr. Fred. Finson, Crail, Saks., writes: "A year ago last harvest I was taken with a sudden attack of diarrhoea which completely laid me out, and in a few hours I had to quit work. I was unable to eat or drink, which were dreadful, the heads of perspiration would stand out on my face at times. I was in such great distress. At 11 a.m. I got up and took a couple of bottles of Dr. Fowler's Extract of Wild Strawberry. I used it according to the way I felt and soon obtained a great change for the better. I am very thankful. I don't know what the cause of my sickness was except the extremely hot weather and the active work I was doing."

Several of my neighbors were taken in the same as myself and had the doctor attend them, but they didn't get any great relief until I used it. I used to take "Dr. Fowler's" when they soon experienced a great change.

Dr. Fowler's Extract of Wild Strawberry has been on the market for the last 20 years and many imitations are being offered to the public.

Be sure and get the genuine put up only by The T. Milburn Co., Linton, Ontario, Ont. \$1.00 a bottle.

TAX NOTICE

Municipality of the Town of Didsbury.

Notice is hereby given that the undermentioned lands in the Town of Didsbury and School District No. 652, will, unless the arrears of taxes and costs be sooner paid, be offered for sale for arrears of taxes and costs on December 10th, 1921, at 2 o'clock p.m. at the office of the Secretary, Treasurer, Didsbury, Alberta.

DATED at Didsbury, Alberta, this 22nd day of October, A.D. 1921.

W. A. AUSTIN
Sec. Treas. Town of Didsbury.

On the Issues.

Continued from page 1.

the people, by the people. Mr. Wood's government is of the class, by the class, for the class."

Where Money Goes To

That his business was advanced by the government was the claim advanced by Mr. Cicer at every stage of the campaign. As manager of the United Grain Growers Ltd., the largest private business in the country, outside of the banks and the railways, he might know something about big business, and also where campaign funds came from. His firm said Mr. Bennett, with its many ramifications, had done \$70,000,000 worth of business last year. They had taken \$700,000 in overages at their terminals in the grain trade. H. W. H. Wood, president of the U. F. A. was the first man that the government had asked to sit on this commission. Charges had been made by carpenters, who said that they built false bottoms in the U. G. G. grain elevators at Fort William. This had a great deal of this money, said Mr. Bennett, went to support the "Grain Growers" Guide, the official propaganda organ of Mr. Cicer.

A number of the farmers said the speaker had demanded an investigation into the grain trade. H. W. H. Wood, president of the U. F. A. was the first man that the government had asked to sit on this commission. Charges had been made by carpenters, who said that they built false bottoms in the U. G. G. grain elevators at Fort William. This had a great deal of this money, said Mr. Bennett, went to support the "Grain Growers" Guide, the official propaganda organ of Mr. Cicer.

In the face of war, the grain market had to close their markets to foreign goods. In the United States the farmers had demanded protection for their industry and the result was the Fordney tariff, which was in effect at the present time and raised a 35 per cent. wall against Canadian farm produce.

Mr. Bennett spoke of the increase in manufacturing in Western Can-

ada. He said that from a few hundred in 1910 the number of plants in the west now numbered over 5000, and the payroll had increased from some \$3,000,000 to \$42,000,000.

"We believe," said Mr. Bennett, "that we cannot meet the conditions consequent on the war, cannot meet our unemployment and other questions without protecting our industries with the only guard we have—the tariff. It is not for the purpose of making the manufacturers rich, but rather for the purpose of developing new industries and developing our young country to its fullest extent."

Touching on the alliance between the Farmers and Labor in East Calgary, he noted the evidence of Wm. Irvine before the Mather commission when he said that the first thing he would do towards his proposed revolution would be to "free the land." Mr. Bennett said that Rev. William Ivens, of Winnipeg, strike fame, had been working in the interests of the progressive party in Alberta.

"Are you prepared," he asked us to adopt the first principles of Sovietism as advanced by William Irvine—of the freeing of the land? Lenin and Trotsky are now passing around the hat for the starving women and children of Russia."

Soldiers Re-establishment

Great as has been the accomplishment of the Canadians in the war, said Mr. Bennett, their work since peace had been even greater. Canada since the war had set the pace for the world in re-establishing her soldiers. "It was you people through your government, who accomplished that and should be proud of it," he said.

Figures Are Quoted

Giving figures of the work of re-establishing following the war, Mr. Bennett said that the government brought 108,000 men and women back from France and put them in hospitals in this country. Vocational training had been given to 50,000 who got better pay. Over 190,000 had been placed in new positions. All this had cost \$102,000,000, and yet in the time this money had been expended, no man had been able to make a charge of graft or corruption. In the matter of pensions, he said that 74,000 men and women were in receipt of government pensions. Pensions amounted to approximately \$33,000,000 a year, and to date and yet, he added, the pensions were none too high and nobody grudged what was paid to men who had in many cases come back from the front more shadows of their former selves both mentally and physically. He added that 227,000 other beneficiaries come under the pension scheme of the government.

26,000 On Land

The Soldiers Settlement Board said that 26,000 soldiers had been placed on the land. They had been advanced \$48,000,000 in land and machinery. The land amounted to 5,000,000 acres and 600,000 had been broken. In 1920 these men raised 16,000,000 bushels of grain. Of the

suffering from a severe attack of pneumonia. His many friends hope for his speedy recovery.

Special Harvest Thanksgiving services will be held in the Westdale Methodist Church on Sunday September 30th at 11 a. m. and 7:30 p. m. Make an effort to be there. R. H. Parker, pastor.

Mrs. Zimmerman, of Calgary, who was visiting with her son, Mr. W. O. Zimmerman, left last Friday, for Calgary and started on Monday for Ontario where she will reside for the future.

A small prairie fire was started near Perry Barnes' last week when a little boy who said his hands were cold lit a match to warm them. He somehow set the grass on fire, which quickly spread and looked dangerous for a while, a large crowd with the wind in their favor, however, soon got it under control. A hay stack started up the next day and threatened the house and barn, but this also was put down under control.

Nice old lady: "Will you kindly tell me if the lady who writes 'The Mother's Page' in my paper is in? I want to tell her how much I have enjoyed her articles on 'The Evening Hours in the Nursery'."

Officer Roy: "What's him, over there, with a pink shirt on, smoking a pipe?"

BORN:—At the Didsbury General Hospital on Saturday October 22nd, 1921, to Mr. and Mrs. D. McGregor, a daughter.

Views of Prominent Men on Business

The Commercial Review, a trade paper published in Calgary has been interviewing a number of leading business men as to what they thought of business conditions. The replies of three men who are leaders in their lines in Alberta, Mr. Fisher, of MacDonald Conner Co. Ltd., R. J. Hutchings of the Great West Saddlery and L. C. Carter, manager of the D. S. Perrin Co. Ltd., in Southern Alberta. These men are practical men in their lines and are thoroughly conversant with conditions as they exist in Alberta and we quote a part of their opinion as given in the Review.

Mr. Carter—

"A test of the condition of business is the capacity of people to buy. For the twelve months ending in August, 1920, the Dominion of Canada imported \$1,296,000,000 worth of goods. For the twelve months ending August, 1921, we imported \$961,000,000, or a decline as measured by values, of approximately 25 per cent. But remember, during this period, the wholesale price of all commodities declined approximately thirty per cent., while the decline in the price of food alone was approximately 44 per cent. It would appear, therefore, that so far as the national purchasing power, taking the Dominion as a whole, it amounts to as much, so far as quantity is concerned, as did the purchasing power of one year ago. Now, remember this is only a broad generalization. It shows pretty clearly, though, what we talk of declining volume of business, we ought to consider the decline in prices, and if the purchasing power of the people of Canada, so far as volume is concerned, is as good as it was a year ago, then there is not so much to grumble about after all."

"If we turn the other side of the shield and look at our exports we find, taking the Dominion as a whole, there is a decline of approximately 16 per cent. Measure this again in volume and the chances are the decline would really register an increase. As a matter of fact, it would be much better in a great many cases if we could measure business by volume instead of value, and then we would know whether we were only getting bigger prices for the smaller quantity we were turning out.

"Let me put another test. The week ending September 15th was not a particularly good week for bus-

iness in the Province of Alberta, yet if we take the four towns showing bank clearings, we find the average decline in that period was 182 per cent. Yes, that is a serious decline, but it's nothing to be alarmed about, when we find that prices have declined to a sufficient extent to more than equalize that figure, and we must remember that price is a big feature in the volume of bank clearings.

"Personally I am an optimist on this whole business. We have done a bigger volume of business this year than we did last. Bigger so far as value is concerned, much bigger so far as volume or weight goes. I do not think we are coming into any boom conditions in the Province of Alberta. I don't think we can do anything to bring the millennium by return of post."

It should be noted that Mr. Carter handles the business covering large, if Southern Alberta, which is supposed to have been more badly struck by the drought of last summer than other sections of the province. The next reply came from Mr. Fisher, of the Macdonald Conner Company. He emphasizes a point to which we wish to draw particular attention, namely, "Getting rid of surplus stock at closed figures based on present values." Mr. Fisher is a shrewd merchandising man with a lifetime of experience in Alberta and in this particular he knows what he is talking about. Retail sales must be based on replacement value. This is the only sound way of doing business and is the only means by which we can go forward to more prosperous times.

Mr. Fisher says:

"We feel that existing conditions justify a more optimistic regarding business prosperity in Central and Northern Alberta. It is true that the price of grain is lower than it was a year or two ago. But consider this is the fact that the crop has been produced at lower cost than during the period of inflated prices, the yield is probably above the average, the grade is generally higher, shipping is easier, and indications are that there will be much less congestion than usual during the season of marketing, permitting earlier marketing of the crop. The price for cattle is reportedly low, but these are definite factors relative to the lower cost of feed. Although 1922 farm production in this territory will produce an enormous amount of money in the aggregate, the circulation of which cannot fail to eventually stimulate business."

Continued Next Week

COST OF ESTABLISHING A TREE WIND BREAK

The actual cost of setting out a tree plantation in the case of a farmer is difficult to figure out. As a rule this work is done by the ordinary labor available on the farm and usually does not entail the actual disbursement of cash for additional labor. If we say it costs 15 per acre or \$8 per acre, to set out a plantation it really conveys very little; as this cost depends entirely on the rate of wages paid. The best way to state the cost is to figure on the actual time required to plant so many trees or to find out the number of trees a man can plant on the average in a working day of ten hours.

On the Nursery Station at Indian Head, Sask., approximately 100 acres have been set out in plantations spaced about our feet apart each way. The first plantings were made in 1905 and have been added to more or less each season. The method of planting followed has generally been in short rows. It has not been found that the number of men employed makes much difference in the number of trees each man can set in a day, provided the teamster also plants if the men cannot keep up with the plow.

At Indian Head it has been found that on an average 833 trees per day can be set by each man in the gang, including the teamster. The highest number on record here is 1,586 per day per man and the lowest 670 per day per man. Where only one or two species are planted more trees can be set in a given time than where four or five species are planted together.—N. M. Ross, Dom. Forest Nursery Station, Indian Head Sask.

To the Public of Didsbury and District:

To the Citizens and Farmers of the Didsbury district:—Since I purchased the furniture of the Rosebud Hotel, I have endeavored to merit the patronage of the local people—I have reduced the price of meals to 50 cents and the price of rooms on the top floor to one dollar single, or one fifty double. These prices are only for the people of Didsbury and district. The Rosebud Hotel is the best hotel between Calgary and Edmonton and is a great asset to Didsbury. I expect to remain here and want to make the hotel pay.

If you appreciate your hotel, and want to see it remain open—may I ask you for your patronage. There are many ways in which you can support and patronize the Hotel. We carry a complete line of tobaccos and soft drinks; we have an up-to-date pool room, if you enjoy this pleasant pastime; our dining room is second to none and you are welcome either in your overalls or in your best bib and tucker. Tommie Johnson is in charge of our barber shop and you can't beat Tommie; may I ask you to leave your whiskers for the Hotel shop. Think these words over, folks, and remember I will appreciate your patronage and friendship.

Yours sincerely,

W. M. CLEMENSON

FORD TOURING \$766

The Big Majority of cars are Fords. Why?

- Because they have balanced power and dependability.
- Because the Ford is the easy car to understand, maintain and operate.
- Because the Ford is the enduring car. It stands up under the daily grind and roughest country roads.
- Because it is the most economical car, lowest in first cost and maintenance.

World Happenings Briefly Told

The Japanese cabinet has decided to accept participation in the proposed conference on Far Eastern problems, the Associated Press is informed.

The Saskatchewan Department of Agriculture has purchased a number of cattle from Ontario, through A. J. Clarke, purchaser for the livestock branch.

Power of the Dominion Government to enforce conscription without first consulting the people, was objected to by the Hull Trades and Labor Council.

Two animals of the renowned Ayrshire herd of Holstein Friesians, owned by A. C. Hardy, Brackley, have been purchased by the Japanese Government for its experimental farm system.

From Halifax to Vancouver in a 15-foot boat is the objective of Capt. J. T. Day, Harry Inglis and H. J. Morrison, who have left on the long trip. They will follow the coast line and go through the Panama Canal, their only motive power a small sail, jib and oars.

The French National Union of Combatants has approved a proposal providing for cards for veterans of the Allied nations entitling the former soldiers to all the advantages in an Allied country that they enjoy in their own. The organization has a membership of 800,000.

Germany lost 1,792,368 men killed and 4,246,874 wounded from 1914 to 1918, according to a revised compilation of German casualties during the war. In addition, 200,000 men are still reported missing. The losses in the navy, which are included in the casualties given above, were 24,257 men killed and 31,085 wounded.

THIS WOMAN'S MISERY

Ended by Lydia E. Pinkham's Vegetable Compound. Remarkable Recovery of Mrs. Church.

Smiths Falls, Ont.—"I suffered with falling of my organs, pains around my head, pains in my back, pains in my neck, neuralgia in my face and head, and that terrible sinking feeling. I felt that I could not live and would fix myself in one of the trees and end my life. I got into trouble if I dropped off in the right. My husband went to the druggist to get the best remedy he had and he gave him Lydia E. Pinkham's Vegetable Compound. I took six bottles and felt a lot better. I will always recommend the Vegetable Compound, and you can see some facts as to its value in the paper, J. O. Church, Box 845, Smiths Falls, Ont."

The success of Lydia E. Pinkham's Vegetable Compound in the cure of worms and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from nervous prostration, dizziness, fainting, palpitation, constipation, irregularities, periodic pains, backache, bearing-down feelings, flatulence, indigestion and diarrhea. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

If there are any complications about which you need advice write in confidence to Lydia E. Pinkham Medicine Co., Lynn, Mass.

Wheat Sixty-Six Pounds to the Bushel

Exhibitors at Edmonton Fair Had Some Good Grain

Among the exhibitors of grain at the Edmonton fair, was Mr. Price Sheppard whose entry of wheat weighed 66 pounds to the bushel. J. Strassburger, of Stony Plain, was also a prominent exhibitor in grains and vegetables. Of special interest was the exhibit of Alta Swedish red clover, above which was an inscription stating that this clover which was first sown in 1915 had stood the test of six years without a single failure. This information should be of great value to the farmers as it is generally believed that red clover will not winter in Alberta, consequently, farmers do not sow this clover which is valuable not only for feed and seed, but as fertilizer. Wm. Chalmers, of Edmonton south, was the exhibitor, and he is enthusiastic in his praise of its qualities, and adaptability to the country.

Is Your Stomach Sour? Do You Belch Gas?

If you have sour risings from the stomach, feel bloated and uncomfortable, just try twenty drops of Nervilie in sweetened water. Relief will come quick. Nervilie dispels the gas caused by overeating, makes you eat and live in a few minutes. As a general household remedy for many of the ills that constantly turn up, nothing is more useful in every home than a 35 cent bottle of good old "Nervilie."

Your Summer Vacation

Special Summer Tourist Fares To The Pacific Coast.

Special Summer Tourist tickets to Vancouver, Victoria, Seattle and other Pacific Coast points are now on sale daily by the Canadian Pacific Railway.

These tickets will bear a return limit until October 31st, and permit stopovers en route, which gives travellers an opportunity of visiting some of the beautiful resorts in the Rockies, such as Banff, Lake Louise, and Jasper, where the Company maintains splendid resort hotels. These tickets are optional via the main line or Arrows Lake route in one or both directions without extra charge. No expensive side trips necessary.

In addition to the "Trans-Canada Limited" exclusive sleeping car train, a choice of two other daily trains is offered, and all are equipped with observation cars through which mountains an excellent view of the magnificent scenery may be had.

Any Agent of the Canadian Pacific will be pleased to give further particulars and make the necessary arrangements for the trip.

Hides Do Not Figure

A prominent manufacturer assures us that the price of hides is not a factor in the cost of shoes. A prominent labor man declares that the labor cost is a pair of shoes represents only about a dollar. One must conclude that the price of an expensive pair of shoes must be caused by something like spontaneous generation—Handsome Herald.

For Frost Bites and Chilblains, cold and frost bite from the icy winds of winter. In the treatment of either an excellent preparation is Dr. Thomas' Electro Gels. It contains the following ingredients and the parts. The action of the oil is prompt and its application is extremely simple.

Work Doesn't Kill.

How much trustworthy evidence is there to show that the hurry and the overworking of modern civilization bring men into premature grave? London and New York City have a death rate very near the low rate ever known; occupations are more and more common, and active business men at fifty-five are as numerous that they attract no attention—Youth's Companion.

Wonderful powers of memorizing facts are possessed by a Yorkshire laborer, who has mentally stored away 31,000 items of general information.

A man's idea of a good memory is one that enables him to forget everything prejudicial to his own interests.

Minard's Liniment for sale everywhere.

Cuticura Soap Shampoo Best For Children

If you wish them to have thick, healthy hair through life shampoo them with Cuticura Soap and hot water. Before shampooing touch spots of dandruff and itching, if any, with Cuticura Ointment. A clean healthy scalp usually means good hair.

Sample, 15¢; Standard, 55¢; Value, 25¢. Sold throughout the United States and Canada. 100% U.S.P. Pack, 5¢. Cuticura Soap saves without expense.

Cretonne Trims Muslin Apron

By Marie Belmont.

A Big Butter Order

Butter from the Edmonton district is in demand, and one of the largest orders ever recorded there was placed recently when Paul de Wolf of Suds, B.C., asked Edmonton dealers to supply him with 1,000,000 pounds destined for the New York market. A million pounds' order is a big one to fill, but agents at half a dozen or more other central Alberta points are also being asked to assist in filling the order.

A WOMAN'S RIGHT TO GOOD HEALTH

Most Troubles Afflicting Women Are Due to Poor Blood.

To every woman belongs the right to enjoy a healthy, active life; yet nine out of ten suffer from some form of blood disease. All that one needs are every side pale thin cheeks, dull eyes and drooping figure—sure signs of headaches, weak backs, aching limbs and uncertain health.

As well as refreshing their weary bodies with the new, rich, red blood that promptly transforms them into healthy attractive women, the new, pink pills, which reaches every organ and every nerve in the body. Through the use of these pills thousands of women have found relief which was otherwise unobtainable.

Among the many women who suffer from worms are those who are silent, who allow themselves to be subjected to the attacks of worms is always ugly and will be stunted in its growth. It is a merciful act to rid these parasites which seem to be essential to a millennium, had come to pass I should have been frightened, but I wasn't.

With so thorough a preparation at hand as Miller's Worm Powders the master who allows her children to suffer from the ravages of worms is surely a bad mother. The worm child subjected to the attacks of worms is always ugly and will be stunted in its growth. It is a merciful act to rid these parasites which seem to be essential to a millennium, had come to pass I should have been frightened, but I wasn't.

The apron of unbleached muslin is admirably for summer wear. Many of these creations are designed so that they take the place of the house dress. The model illustrated is fashioned with short sleeves and the upper part is cut long enough to blouse over the sash of cretonne. It is really a slip-over affair as the back is closed except for a small opening at the top which allows an easy exit from its enveloping folds. A band of cretonne outlines the square cut neck as well as the sleeves and pocket. A cretonne flower decorates the front.

Off the northwest coast of Australia there used to be a beautiful island 13 miles long. But it gradually sank until it disappeared entirely, and at the latest reports of sounding, it was found to be 50 feet below the surface of the water.

Our slogan for the coming year should be, "Buy at Home." Add to your own and your neighbor's prosperity by keeping the money circulating in our own district.

A Rational Razor

An unstrapped blade gets duller every shave. The best way to keep down the use of a dull blade is simply an unstrapped blade. Therefore, to attain shaving happiness, you must have a blade which can be sharpened quickly, easily, and without being taken out of the frame.

The Vale Auto-Stop Razor is the only safety razor which meets all these conditions. Let your dealer demonstrate it to you and you will be convinced. A perfect shaved guarantee with every dollar package of blades.

Razor strap and 12 blades in assortment of cases, \$5.00 the set. Fancy sets up to \$15.00.

Auto-Stop Razor

Auto Stop Safety Razor Co., Limited, TORONTO.

Written Sixty Years Ago

Time Was Not Ripe for End of the World.

I should have felt more nervous about the fate comet if I had thought the world was ripe. But it is very green yet, if I am not mistaken; and besides there is a great deal of coal to use up, which I cannot bring myself to think was made for nothing. If certain things which seem to be essential to a millennium, had come to pass I should have been frightened, but I wasn't.

Those Having Sick Animals SHOULD USE

MINARD'S "KING OF PAIN" LINIMENT

Good for all throat and chest diseases. Diaper, Gargle, Sprains, Bruises, Colds, Rheumatism, Running Sores, etc. Should always be at the stable—SOLD EVERYWHERE.

The Endurance of Your Automobile, Truck, or Tractor

Depends not only upon the time of Lubrication, but the kind of Lubrication.

WHITMORE'S AUTO GEAR PROTECTIVE COMPOSITION

Adults 300% to Gear Life. Thousands of tests have been conducted by Lubricating experts to determine the time and kind of various lubricants. The results of these tests conducted over years, has fixed the choice of oil and leading manufacturers. The manufacturer indicates.

The largest builder of gear cars in the world; The largest builder of trucks in the world; The largest builder of axles in the world; The largest builder of worm gears in the world.

Many lubricants contain acid. They not only fail to counteract friction, but are themselves harmful and corrosive to gear and bearing surfaces.

Whitmore's Auto Gear Compositions Contain No Acids

They are proof against heat and cannot break down or squeeze out. In the Panama Canal Emergency Dams, six million pounds rest on an unbroken film of WHITMORE'S.

After an exhaustive test, the Army contracted for its exclusive use. Manufactured by The Whitmore Manufacturing Co., Lubricating Engineers, Cleveland, Ohio.

The Homesteaders

— BY —
ROBERT J. C. STEAD

Published By Special Arrangement With the Author.

(Continued)

"I didn't know it," she protested. "I don't believe either Beulah or Jim had any such thought in their head. But even if they did, Jim Travers is as decent a young man as there is in Prairieville, Alberta, and you've no right to say he's bad just because his own temper, that drove them away in the way they went."

"I won't listen to that kind of talk from you any longer," said Beulah sternly. "The whole world repudiates to earth, if it takes all summer. And unless you can clear yourself of being mixed up in this well, there'll be some trouble to stir up on that score, too. Hitch up the drivers, Alvin, and keep the Catarhozeen Co., running."

"You're not going to leave your ploughing, are you?" asked his wife. "The tractor's going to run, and I may as well go. It was such an unusual thing for her husband, on any account to leave the farm work unfinished. The price of the Harris homestead was six thousand, all other considerations second."

"That's enough of your sarcasm," he snapped. "I would think when our money is invested in a place like this, like we have been, we should be as anxious to defend it as I am. How it is to you back on me a moment like this? You're not the woman you once were, Mary."

"And you're not the man you once were, John," she answered. "Oh, can't you see that we're just reaping what has been sown—the crop we've harvested?" She had seen the end of Beulah's very life has been crying out for action, for scope, for room, for something that would give her a real outlet. She had been too poor, too purposeless to live her life and we've not tried to answer that cry. I blame myself as much as you, John, perhaps more. I'm afraid I've been so hard-hearted I should have seen the danger signals long ago. But I was so busy, I didn't think. That's the trouble. John, we've been so busy with work we haven't taken time to keep up with her. The present generation is not the past. What was enough for you and me is not enough for her. Allan doesn't do any good to scold—scolding doesn't change conditions; but if we'd stopped and thought and studied over what we had done, we might have seen them—our cured them. We didn't, John, you were too busy with your wheat and your cattle and I was too busy with my work, and we never have made of it. We've gathered some property together, and our care has grown in proportion, but that's not all. In the world we have less—because we valued it less. The trees were slowly crowding down her

A Stitch in Time

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you will find a treatment which is both quick and thorough.

Mr. C. E. Raynor, Ldne,

Alta., writes:

"I was a great sufferer from kidney disease and took the pills for nearly a year. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and, acting upon his advice, I tried them. After I had taken one box I found a marked improvement and used five boxes. By this time I felt as well and strong as ever, and am glad to recommend Dr. Chase's Kidney-Liver Pill to anyone suffering as I did."

Dr. Chase's Kidney-Liver Pill, one pill a dose, 25¢ a box, all dealers, or Edmonson, Bates & Co. Ltd., Toronto.

Helps A Weak Throat Strengthens The Voice Relieves Bronchitis

By Breathing the Healing Balsams of
Catarhozeen Your Are Made
Well Without Using Drugs.

You breathe through the Catarhozeen inhaler medicated air that is full of healing, soothing balms. All of these balms are made from the essence of the air of the pine woods in the Adirondacks. This pinewood vapor has a truly marvelous action on weak lungs, bronchitis, asthma, croup, hacking to the bronchitic, stops that hacking cough and difficult breathing. You can't find anything for bronchitis, asthma, croup, or croupy throat like Catarhozeen. It means heaven on earth to the man that has had bronchitis, asthma, or throat irritation. The inhaler is a simple affair, and can be used by any member of the family. It would be likely to know him by the name of Rev. Andrew Guthrie who was a man of sense and discernment. Harris had frequently gone to hear him preach before he became minister. He had a large congregation, and he even got contributions five dollars a year.

Mr. Guthrie received this queer call, and when he came to the house of his friend he found the man might be sick, but deforey formulae a direct question. Now, in agricultural life, there is nothing of more importance to approach any number of influence than the size amount of verbal address. The size amount of influence is revealed. Consequently, Harris, for all his tortures of suspense, spent some minutes in a discussion on the weather, the crops, the harvest, the importance of a late harvest in harvest.

"They'll be all well at home, I hope," said Mr. Guthrie at length, feeling that the customs of the community were still more highly honored than ever. "All that's there," said Harris.

"All that's there? I didn't know any of your folks were away. Perhaps Mrs. Harris is down town. I'm a man who could not afford to let her go, and, of course, Mrs. Harris, you are able to greatly comfort us in those times when we are not at home, what they were in the early days, when, if I preached in Tom Morrison's log-house, and you led the bass, you would be the best bass in the choir. You could sing all day if you gave it a chance."

Harris received these remarks with a smile of relief. The minister's reference to his financial standing carried with it a certain gratification, but he conversed freely with his recent convert, and with his wife and with his nearest neighbors.

"And Beulah?" continued the minister, conscious that his first shot had gone wide. "She's a fine young woman, I know her well, and I think she would have called on me. Travars, too, I know a little and thought him a decent chap. But we must have a word with him. Let me talk with him. There is any place in town where he would be likely to go to? What about Mrs. Goode's boarding-house? I don't know where he goes to eat, but he can make inquiry without the necessity of any explanations."

Inquiry at the house of Mrs. Goode produced a strong rat and a box of old dried beans. Beulah had been there during the morning, and had explained that she was leaving on the westbound train, which, even now, was bound for the mountains. The minister, thinking this without a word, Harris brought a sharp cut of the whip across the boy's bare back. The boy, though the railway station half a mile later, the train was already pulling out, and when they plainly saw Jim Travers with lithe livery on to the rear platform.

With an oath, the farmer reached back and snatched the whip from his hands before any onlookers noted the action. "Don't be a tool," he whispered, and started the horses homeward.

the neighborhood was equally futile. Harris shrank from carrying his search into the town, as he believed the publicity that would be attached to such a search was a definite disadvantage. He had, however, written to the local paper, and by calling on the editor and squaring up for a year in advance he could easily have made himself a quarter, but the greater of the visitors could not be silenced by any such simple method. But as the day wore on, the search was fruitless, and he finally found himself in Prairieville. If Beulah and Jim were really married, the Presbyterian minister would be likely to know him by the name of Rev. Andrew Guthrie, who was a man of sense and discernment. Harris had frequently gone to hear him preach before he became minister. He had a large congregation, and he even got contributions five dollars a year.

Mr. Guthrie received this queer call, and when he came to the house of his friend he found the man might be sick, but deforey formulae a direct question. With an oath, the farmer reached back and snatched the whip from his hands before any onlookers noted the action. "Don't be a tool," he whispered, and started the horses homeward.

CHAPTER X. Into The Farther West.

To the north of the prairie lies the Rocky Mountains. His life has surrendered his purpose to the judgment of his son, and as they drove homeward along the dusty trail in the heat of the day, the consciousness of having left him behind, Allan, was eight. To have used his gun would, of course, have been madness; he had never seriously intended doing anything, and had, when on the trail, in the pettiness of his nature, this passion had made him irresponsible. And, as he thought it all over, he concluded that nothing was to be gained by pursuit of the

Remarkable Gain In Weight Reported By This Young Woman

"Before I began taking Tanase I only weighed 76 pounds. I now weigh 100 pounds, and gain weight every day," said Miss La Rue Davis, of Chattanooga, Tenn.

I bought myself a bottle of Tanase and it helped me so much that I match that I continued using it. I have always been very delicate and suffered a great deal from rheumatism, but since I began taking Tanase I rarely ever had any appetite, and I simply could not relish anything. I fell off

runways. There was only one westbound train in the day; he could not catch it, and he had to wait until the next day, and he could not afford to let him by two hours as long as he cared to keep up the pursuit. True, he might telegraph ahead, and have the train stop, but that would be useless, and I would be ineffectual in the end. She had gone on her own free will, and all along she had been under his eyes since now that she had gone, he might stay. She had left a good home, a fond father, and a share in the family fortune. I am a man, though, which now makes the boy of her bargain. Harris assured himself, with absolute sincerity, that had done his duty in the matter, and that in exchange for all his kindness his

daughter had treated him very badly indeed.

W. O. ZIMMERMAN

AROUND THE TOWN

from this district over there for their coal.

Mr. Thompson of Calgary was visiting with his daughter Mrs. W. G. Zimmerman for a few days this week.

Mr. and Mrs. A. A. Perrin motored to Munson on Tuesday to attend the funeral of Mrs. H. C. Adsett which took place on Thursday afternoon.

The town Tax sale List is printed in another page of this issue. Look it up to see if any of your property is in the list.

The Mountain View Women's Ins.

STOP PRESS

Mr. E. B. Shantz died on Thursday morning, October 27th. The funeral will take place on Saturday afternoon.

It will give a bazaar and dance on the 18th of November at the Community Hall.

We hear rumors of another rail road coming to town. Grading has been completed between the Gore and Ed. Blaine's farm. The Rose bud flat has also been fixed.

Geo. Wrigglesworth who has been confined to his home because of blood poisoning in his right hand and arm is now getting around again although unable to use the hand yet.

Services will be commenced in the Baptist church by the Rev. W. S. Watson, of Olds. These services will be held every Sunday at 2:30, commencing November 6th until further notice.

Manager Harrington of the Opera House is giving a Masquerade dance on Monday night next. Good prizes will be given and Shaw's Coliseum Orchestra will supply the music.

Ratpayers of the Westerdale Municipality should study the Tax Sale List published in another part of this issue. It may save some trouble.

Mr. N. R. Singleton who lives west of town was taken to the Didsbury General Hospital on Thursday last.
